

1 - CLASS, CLASSROOM

Quarterly Classroom Evaluation

OIT Classroom Technologies is interested in classroom feedback from your Fall 2021 courses. Please complete this survey for each course you taught in a general assignment classroom or OIT-supported computer lab this quarter.

Your responses help us assess the current state of the classrooms and our support for them, as well as guide us on the future of SmartClassroom technology. You may submit the survey multiple times to evaluate more than one classroom or to provide additional feedback.

For a full list of general assignment classrooms, visit: [OIT-CTS Classroom Information](#).

For a list of OIT computer classrooms, visit: [OIT Computer Labs](#).

2 - RECENT CHANGES

Impact of Recent Changes

Over the past decade, OIT has refreshed the A/V equipment in all General Assignment SmartClassrooms and most OIT-supported instructional computer labs, and has delivered new equipment installations in spaces like SE 101 and Anteater Learning Pavilion.

All general assignment classrooms were rapidly updated with web and document cameras over Summer 2021 in order to provide options for live-streaming, recording, and otherwise better accommodating flexible content delivery in light of the COVID-19 pandemic and its impacts on in-person teaching and learning.

To help us plan for upcoming classroom projects, we would appreciate feedback on the newly installed technology.

To what extent did the following aspects of the classroom support or impede your teaching goals?
